

Last issue, we published two teaser photos of the above car, which was hidden away, evading everyone until it suddenly appeared on the Denver area Craigslist . As promised, it made its appearance for the first time in years at the 2016 edition of the annual Muscle Car & Corvette Nationals show in Chicago last November, and was the first Studebaker to be entered in the popular 'Barn Finds' section of the show. Owner, Jim Moore is currently restoring this rare car, and we will show some progress photos in an upcoming issue of Jet Thrust News.
